

Please note that this template is for you to use completely FREE OF CHARGE for your own personal card-making projects. Please do not abuse this service by copying and selling this template.

This template is designed to fit an A5 sized card.

1. Print the template twice.
2. For the body, cut around all the OUTSIDE lines.
3. For the 'bra', cut around just the 'bra' shape.
4. Place the left hand edge of the template onto the fold line of your card.
5. Trace with an embossing tool and again cut around the line.
6. Trace the 'bra' shape onto whatever type of paper/card you want to use and decorate it to taste.
7. Attach the 'bra' onto the body with 3D foam or double sided tape.
8. You can make the back of your card 'body' shaped too by simply tracing and cutting the template outline on the back of the card.

Why not add a necklace? Or instead of just a 'bra', decorate the whole body shape to form a bodice or dress?
